DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by JP 2-133150 or WO 00/61320 (IDS).

WO '320 disclose a continuous casting plant comprising a mold, counter-rotating rolls, conveying means, located downstream of the casting direction, a deflector located lower than the counter rolls. The deflector deflects the initial portion of the strip from the vertical direction, provided motor means for translating the deflector along a horizontally rectilinear trajectory from the standby position to the operative position (figures).
